

Muhamad Thio Basudewo

IT & UI/UX Professional | Database Administrator

Jakarta, Indonesia | +62 823-3310-8266 | Muhthio93@gmail.com

Professional Summary

I am Muhamad Thio Basudewo, a graduate of Universitas Ciputra with a major in Information Technology. I possess strong expertise in application and website design, combined with solid professional experience as a Database Administrator. I am responsible for managing, monitoring, and maintaining enterprise databases to ensure optimal performance, availability, and data integrity. With a balanced background in design and technical operations, I bring a user-centered yet system-oriented approach to delivering reliable and scalable digital solutions.

Education

Universitas Ciputra Surabaya Bachelor of Information Multimedia & Technology (2012 – 2018)

Work Experience

IT Database Administrator – PT Infomedia Nusantara (Oct 2022 – Present) - Monitor database performance

and availability as first-level operational support
